Personal Summary

I am **Braham Prakash** having very good understanding of web development, I have created many projects using the latest Frontend technologies like React and SCSS, and also have learnt few Backend technologies like Node and Express, along with using the FIrebase as a main database in my many personal projects.

Skills

- **Technical**
  React | SCSS | Git | Node | HTML 5 | Javascript | CSS 3 | ES6 | Photoshop | Adobe XD
- **Interpersonal**
  Team Leadership | Coordination | Decision Making | Problem Solving

Projects

- ### React Real Time Chat App 🔗
  Chat app made using **React** and **Firebase** where I have used **React Hooks** for fast load, unload, update of the page components.

- ### React Sudoku App 🔗
  A classical sudoku game built entirely on the **React** using **React Hooks**, **SCSS**. Also used the **React Router API** to browse through different components like (rate, scores etc), used the **Local Storage Object** for (history, undo, redo functionality).

- ### React Calculator App 🔗
  A **React** based online calculator built using the **React Hooks** and used **Session Storage Object** as a storage for the history of the calculator's evaluated expressions.

Education

- **Self Taught and Certifications** (2020 - Present) - *Web Technologies and Programming*
  Earned certifications from Sololearn, Grasshopper, FreeCodeCamp, Adobe, Autodesk in responsive web development, Data Structures, Photoshop, 3d Softwares.

- **Maya Academy of Advanced Cinematics** (2017 - 2020) **- Animation & VFX** - *3D, 2D Animation and VFX*
  Learned the 2d and 3d elements of the CGI, worked on Animations and Designs projects.

- **Manas Sthali Public School** (2016 - 2017) **- Science and Maths with Computers** - *Basic Programming with C++*
  Learned basic C++ principals, programming in general.

Interest & Hobbies
